IF YOU SHOULD EVER GET MARRIED.

If you should ever get married, John,
I'll tell you what to do—
Go get a little tenement
Just big enough for two;
And one spare room for company,
And one spare bed within it—
If you'd begin Love's life aright,
You had better thus begin it.

In furniture be moderate, John,
And let the stuffed chairs wait;
One looking glass will do for both
Yourself and loving mate;
And Brussels, too, and other things
Which make a fine appearance,
If you can better afford it, they
Will better look a year hence.

Some think they must have pictures, John,
Suber and costly, too;
Your wife will be a picture, John,
Let that suffice for the wise men said
Remember how the wise men said
A tent and love within it,
Is better than a splendid house,
With bickering every minute.

And one word as to cooking, John—
Your wife can do the best;
For love to make the biscuit rise
Is better far than yeast;
No matter if each day you don't
Bring turkey on the table,
'Twill better relish by and by,
When you are better able.

For all you buy pay money, John—
Money earned every day;
If you would have your life run smooth
There is no better way;
A note to pay is an ugly thing
(If a thing you choose to call it.)
When it hangs over a man who has
No money in his wallet.

And now when you are married, John,
Don't try to be a rich man;
It took them many a long year
To gain their envied niche.
And if you gain the summit, John,
Look well to your beginning,
And what you win will well repay
The care and toil of winning.

LETTER FROM COLFAX.

COLFAX, April 19th, 1867.

MR. EDITOR:—We have had this week what might well be called "a gathering of the clans." It was known that at an appointed time our County Judge and County Clerk would be here with the Great Register, and that those found worthy would be entered thereon, and their names transmitted to posterity. From early Monday morning until late in the evening dense crowds of individuals were arriving from all directions, all anxiously enquiring for the enrolling office. They represented all classes and nationalities from the sunny slopes of the Italian Hills; to the rugged and barren regions of Norway; to the classic language of one of our citizens, "the Irish mostly predominated." They carried generally in their right hand a large printed document, resembling a diploma or charter to a temperance society; this, held aloft, they frequently waved above their heads then would slap it violently into their left hand, and accompany it with the exclamation "there's the document for ye! that will fetch 'em my hearties!" etc., etc. On being told the locality, all would pass on and make for that point. For the purpose of accommodating the masses our clerical officers procured and fitted up Starr's elegant hall; this was thought sufficient, and for ordinary purposes, such as dancing, theatrical parties, etc., it certainly is, but it was soon ascertained that the rush was so great on this occasion that the entire building was threatened with demolition; Trappan & Fosset, occupying the lower rooms, abandoned them; Starr rushed wildly about appealing to the crowd, but apparently with but little effect; at length, an Irishman from the neighborhood of Rice's Bridge—apparently better informed than the majority—harangued the crowd. He, it appeared, had been a member of several Democratic Conventions, and proposed, in imitation of them, to elect a Sergeant-at-Arms. This took with the crowd—with whom he seemed evidently to be a leader—and the officers were too anxious for any change that afforded them a showing for protection, to offer any objection. The individual making the proposition was himself elected to the position, and to do him credit he filled it to a charm; he proclaimed the beat allotted to him, ushered in this one with the remark of "it's yer own time, Mike," and that one with the "Make way for voters," and showed fully by his acts that he had graduated from an old "Democratic Primary." The humble pen of our County Clerk was kept steadily going all day, but as there must be an end to all things, a finality was brought to this, and the Great Train was declared duly registered.

Our Dramatic Troupe favored us this week with their long promised entertainment. There were two plays performed. The first was "The Golden Farmer." The principal character in this play seems to be one who had been a famous and successful highwayman, but through the affection and love entertained for his wife and child, had reformed; but the grasping qualities of his mind, when tempted by the prospect of increasing the value of his farm, overthrew his good resolutions, and with an old comrade he entered again upon the paths of crime. The characters of the Farmer and his wife were well and correctly represented by Mr. and Mrs. O. They showed fully an appreciation of the

parts assigned them, and it was the general opinion of the audience that they would have done credit to a first class theatrical troupe. The character of Hammen, who combined the qualities of headie, church warden, auctioneer and horse dealer with that of being a most consummate drunkard, was well played throughout, and the scene where he was excluded from his domestic fireside was played to perfection. That of Jimmy Twitchee, the petty thief and vagabond, was also well filled by one of our town boys—the crockery style and twang of the voice being well imitated. Luke Murray also played his part well, especially when inebriated. Several other characters were also well played, but I do not think the Young Soldier as represented showed that reckless dash, vim and feeling that are usually attributed to it, nor did his sword, when he entered the arena, indicate that it had been employed in the active service for which he claimed it credit. Peelan, as one of the policemen, got off the expression "Open that door!" tolerably well, but there seemed to be something lacking in his playing throughout. The other policeman was entirely out of place; he resembled a tall sawyer of a saw-mill far more than a sheriff, and while on the stage seemed to be waiting for the saw to go through and ready to turn back the frame.

The other piece the Clockmaker, was well played. Each one seemed to understand the part assigned and to fully appreciate it. On Miss N. too much praise cannot be bestowed; she played her part with ease and grace and adapted herself perfectly to the part chosen. Loud applause followed her performance and her acting might well be envied by a professional. I cannot permit this opportunity to pass without paying a deserving compliment to James Hill, our resident painter and artist; the design of his paintings in the theatrical scenery show a combination of taste and skill that we seldom meet with, and bespeak for him a master in the profession.

Moonlight excursions and fishing parties are becoming quite common, and are exceedingly popular with our people. I am told that Messrs. Starr and Boington—forming a party this week—succeeded in bagging a fine "cod."

We have had several delegations from your neighborhood down here this week. Candidates seem plenty and are throwing themselves in the breach with real, genuine earnestness. Hollenbeck, Calderwood, Thomas, and Charley Brogan were here and were buzzing the boys considerably. Charley says that the race for Treasurer lies between Hollenbeck and Richmond, and he seems to be the champion of the former. He also says that Charley Kopp has no chance for the office of Collector. This assertion I think a gratuitous one on his part, and might well have been omitted.

Yours, OCCASIONAL.

FACTS VS. THEORIES.—"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicine, of olden time, "and I will cure all diseases." In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or to cure disease. Medicine was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filter and charms of the "evil eye," etc.

But these latter days have born into us something more than even superstition and their crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory yesterday is fact to-day, and all the old time notions become bubbles in the sea, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicine point to the church door and drugs he so surely needs, for we have them at our hand, ever ready to serve them at his beck.

Roiled in the laboratory of Dr. Maggell's finest materials known in the medical profession, are obtainable by any one. His Billions, Dyspeptic, and Dribble Pills stand unrivalled, and Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think Maggell's Pills and Salve are the wonder of the century, and we are happy in the thought that many others of our brethren of the craft agree with us. We earnestly counsel that all females provide themselves with Dr. Maggell's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves. *Valley Sentinel.*

On one occasion during the attack on Donelson, a Southern hard-shell exhorter, was holding forth in strident strains, declaring repeatedly that the hard fought on the side of the South, and Jehovah was encamped round about the Confederate Army, saying that it was impossible for the invading Yankees to conquer them. Just at the close of one of these sentences, a man came up to the church door on horseback and yelled out: "The Yankees have captured Fort Donelson and are coming up the river!" Then my brother, observed the startled preacher, "save yourselves, for the Lord has got licked."

To the FLORENCE SEWING MACHINE CO. for the

Best Family Sewing Machine,

HIGHEST Premium! Gold MEDAL!

REASONS:

1st.—Its simplicity and great range of

work.

2d.—The Reversible Feed Motion.

3d.—The perfect finish and substantial

manner in which the Machine is

made.

4th.—The rapidity of its working and

the quality of the work done.

5th.—The self-adjusting Tension.

The Florence was awarded the first and highest

premium at the State Fair of California, the only

Fair on the Pacific coast at which any two double

thread Sewing Machines were exhibited in competi-

tion in 1865.

The Florence received the only premium awarded

by the Mechanics' Institute of San Francisco, in

1864 and 1865, to any Sewing Machine, Sewing

Machines Co., or Agent. The claim of a competitor to

a medal is without any foundation whatever.

Wherever the Florence has been brought in com-

petition with other Sewing Machines, it has al-

ways been declared the best. It is the most simple,

the most substantial, the most efficient, and its use

is easily learned. Every Machine sold is guaran-

teed in the full sense of the word.

Auburn, April 15th, 1867.

THE MINE.—During the present week several of the claims near this place and Gold Run have been cleared up, results that do not fully justify what some have been pleased to say an extravagant estimate on our part. The Dutch Flat company, in this place, after a run of sixteen days, seven men working, cleaned up the sum of \$300.51; a report from this company is never denied as we think the accommodating manager, Mr. Colgrove, for his continued courtesy in rendering our local all necessary facility in obtaining mine intelligence.

The following items of mining news were furnished us by a gentleman who obtained them from reliable sources, and the figures may be depended upon as showing the amount a little less than the actual clean up for the sake of stating them in round numbers: B. Fitzpatrick cleaned up after a run of eighteen days \$2,450; Baldwin & Bailey cleaned up their diggings after a run of thirteen days and realized the sum of \$1,040. The Golden Gate company yielded \$2,000 after a run of nineteen days. Haycock & Judd after a run of 17 days realized \$3,000. The Moore, Taylor & Harriman claim from a run of twenty-two days cleaned up the handsome sum of \$5,500; this is the largest yield ever obtained from any one run in the district, we believe, and is now the banner claim.

A GOOD JOKE WELL PLAYED.—Some six months since an admiring friend desirous of showing his appreciation of our course purchased Ure's Dictionary of Arts, Manufactures and Mines and intended to make a public presentation of the work to us, but learning, incidentally, that we had engaged the fine talent of our friend who caters to the literary taste of the readers of the *Stripes*, hesitated in giving us the three ponderous volumes, believing that our assistant did not require the assistance of that or any other authority to post himself upon, and refrained from making the presentation. On a recent visit to our friend we admired the books, and he promised to box them up and forward them. On the eve of our departure we received the package, done up in business style (weighing about 40 pounds) and started home rejoicing. On our arrival at home we opened the package, and our indignation, chagrin and mortification can be better imagined than described, upon beholding three ponderous wood volumes purporting to be the work we had expressed such an admiration for. Believing some mistake had occurred we made inquiries and were delighted to hear that the donor was impressed with the idea that *Stripes* was still in our employ, and had designed this edition for his use; knowing the material of his head our friend had prepared this work as most suitable for him to pore over. It is useless to say that a great weight was taken from us on learning this fact and we immediately forwarded the volumes to Auburn where the intended recipient may derive the value of the important information contained within their popular lids.

The performance by the Amateurs on Thursday night last was all that their friends could have reasonably expected. The rendition of Tell was a great improvement on the first attempt; the performers being better up in their parts as well as appearing to have a better conception of the several characters. We would suggest more attention by the stage managers, as many of the most important and interesting scenes are marred by keeping the characters before the audience longer than necessary. Gosler appeared good at home than before. Emma, always good, seemed to appreciate the situation, which had the effect of bringing out some very good acting. The performance was very creditable and by application and study a degree of perfection may be arrived at. The farce was good; Miss Grace Halsey as Jedidah was all any feller need wish, and Miss Ella Molter was equal to an old stage. Little Cal sang her little song to the applause of the audience and retired in a manner equal to those used to the public.

THE GREAT REGISTER.—During its stay in this place received an accession of about two hundred and fifty names. The majority of the names received by the Clerk and Judge during their trip have been foreign born and their political complexion is said to be about three to one in favor of the Union party. Our Democratic friends being mad at the law refuse to register. There are now about twenty-five hundred names upon the Register which will probably be swelled to thirty-eight hundred before the election.

I. O. O. F.—New Lodge. Colfax Lodge No. 132, of this benevolent Order was organized at Colfax on Thursday last, by the R. W. Deputy Grand Master, Chas. N. Fox. We understand that this new Lodge, which will hold its regular meetings on Monday evenings, is started under very favorable circumstances.

The following are the names of the officers elected and installed the present term: John England, N. G.; Jacob Keck, N. G.; James Harrison, Sec'y; A. H. Goodrich, Treasurer.

MAY BALL.—The citizens of Gold Run will give a social ball at Hackett's Hotel, Gold Run, on the evening of Wednesday, May 1st, to which the public are invited. The known character of the people of our sister town for hospitality as well as that of Mr. Hackett as a caterer to the public taste should ensure a large attendance. See advertisement.

CHRISTUS TREES.—Can anybody tell us of any chestnut trees growing in California?

PROSPECTS OF WAR IN EUROPE.—Greece is very sure to go to the aid of Cretians, and Russia will take European Turkey. At this, all civilized nations will rejoice. True, Turkey has made some progress in religious toleration, but it has been under pressure from the English and American Embassadors. She has also advanced slightly in civilization, still she is very deeply dyed in barbarism, revealed especially in the present war in Crete. While the sympathies of the north are with the noble efforts of the Czar of Russia to enlighten and elevate his subjects, and should he extend his boundaries to Constantinople the north would be made the better for it, and neither England nor France is in any condition to interfere, however much they might be disposed to do so. If France and Prussia are to have a brush over the Luxembourg question, Americans will be more likely to side with Prussia. For, however much we rejoice to see Napoleon III. coming from the ground to humble the pride of kings and aristocrats, the plebeian upstart, bringing all the old crowns at his feet; yet, we cannot waste any love on a driving builder of a dynasty, whose crowning glory is a muzzled press, an iron-handed despotism. We have no great reason to be proud of Bismarck, for it is not yet clear whether he is a lover of freedom for its own sake, or a shrewd politician succumbing to the temptation of his concessions to the people. But opinions vary as to the probable result of the contest, should they come to blows. The French are full of enthusiasm for victory, and the glory of France. The Prussians are fresh from a most memorable triumph, and are as well trained and armed as soldiers can well be, and we venture a prediction that they will not be overcome by the all conquering Gaius. As matters stand to-day we lean toward the Teutons.

FOR COVETOUS.—"Why and how Gorham has been 'done to death' exercises and amuses us."—*Says and Stripes.*

Don't worry brother, but always bear in mind that assumptions never accomplish half as much as votes. Let all who will, believe that Gorham is out of the fight, and Pixley and Bixwell will have it all their own way. Many a battle has been lost under-estimating the strength of one's opponent. The man who intends to get a majority of the San Francisco delegation in spite of the friends of Gorham, would do well to talk less and work more.

The blowers in that City who have talked about a solid and unanimous delegation in the State Convention elected by the County Convention, are woefully mistaken. The County Committee have not yet recommended any such course, nor will they. On the contrary, the delegates to the State Convention will be chosen by Districts as heretofore. And Bidwell, Pixley, and Fay, will doubtless get their full share according to their deserts and deeds, perhaps more.

CORRECT IT, IF YOU PLEASE.—In the last number of the *Stripes* the editor intimates that we "are bent on picking a quarrel" with him. Now we disclaim all intention of the kind. We are at a loss to conceive the motive of his making the assertion; but we do not pick quarrels with any one; but should we ever be guilty of a discourtesy of the kind would certainly select an object worthy of "our steel." The squib alluded to intimates, a la "Our Mazepa," that a gentleman who should be safe from such allusions, is concerned in the "warfare" he imagines is being waged upon him. The intimation is as false as uncalculated for. We do our own fighting. As to being jealous of his growing popularity, we look upon his course as being a growing cancer upon the party, and will be most likely, if not stopped, to cause more discussion and bickering in our party ranks than a dozen honest organs could neutralize. We are satisfied from the expressions of worthy gentlemen that our course is approved, and we are not particular whether we are endorsed by the *Stripes* or not.

TO SEASON LUMBER.—Autrax in the San Francisco Times says:

Pile green boards, with parting slips, as usual in a shed, double sized, and packed with sawdust. Let there be eight feet space under them, in which place a stove. Let it be roofed like its sides, only have a trap-door so hung as to readily yield and open on pressure from within. This is all rough work, feasible in two days.

Now, let into the shed the waste steam of your engine, through protected pipes under ground. In twenty-four hours your boards will be thoroughly water soaked, and soft to your thumb nail. The Albuminous sap is driven out, and water holds its place. Look out that the pressure of steam finds vent at the trap-door during this process. Now you have only water to get rid of. This is easy. Light up your stove, and in twenty-four hours your boards will be no shrinkable elements. The seasoning will be complete, and the lumber will work at once under the plane of the carpenter as old seasoned lumber.

A VINDICATION.—Capt. Patrick Munday, Deputy Assessor of District No. 2, comes out this week in print and denies being either "ignorant or negligent" in listing names for the Great Register before the time authorized by law. He charges that Judge Hale and District Attorney Craig misled him in the matter. Whether against his better judgment and knowledge in the premises he does not say. We are not disposed to quarrel about terms. We did not intend to reflect upon the officers concerned in this duty, but merely to inform those who had given their names at the time that they were not upon the Register, and to state the cause.

GOOD FOR THE SOUTH.—It is reported that several of the late rebel States are about to send commissioners to Europe to get emigrants.

RELIGIOUS NOTICE.—Rev. G. R. Baker, of Santa Cruz, will preach in the Methodist Church to-morrow morning and evening, at the usual hours.

SMOKING.—Mount Baker, in Washington Territory, has been in an active state of eruption since the last of March. Indian tradition says it was a flaming volcano thirty years ago.

THE MARRIAGE AT CANA.

An able and interesting sermon preached at the Union Church on Sunday evening last, has called attention to the story of the marriage at Cana, of Galilee, on which occasion Jesus is said to have performed his first miracle by turning water into wine. Many devout and learned men, in different ages of the church, have denied the historic truthfulness of the narrative, and I give some of the reasons which may have led them to such a conclusion: First: Of the four evangelists who have written biographies of Jesus, only one, John, gives any account of this miracle. It is certainly singular, if not suspicious, that this miracle, the first that Jesus performed, enacted too, in a public place, and creating, as it must have done, great astonishment and sensation, should be entirely overlooked by Matthew, Mark and Luke, and only recorded by John, the latest of the four writers in point of time, and the most unreliable in point of fact. Second: The purpose for which it was performed. Jesus on other occasions refused to perform miracles for other than benevolent purposes; but here is a miracle different from all the rest and contrary to the policy of Jesus, for the reason that it was performed in the interest, not of beneficence, but of luxury and dissipation. Third: The unreasonable and disproportionate amount of wine produced. The word translated *firkins* is, in the original, *metretes*, an ancient Greek measure. Now supposing each of the water-pots to have contained two and one-half measures—the account says from two to three—the amount produced could not have been less than one hundred and twenty-five gallons. This is certainly a large supply of wine for a marriage ceremony in the little village of Cana especially when we consider that the company was already "well drunk" when this last supply was produced. Fourth: The attitude in which Jesus is placed towards his mother. The words "Woman, what have I to do with thee?" are certainly unkind. Any man who should thus address a mother in a public place or elsewhere would deserve censure, if he did not create disgust. The words are utterly inconsistent with the sweet and lovely character of Jesus. It is incredible that he should have used them. He had heard of the fifth commandment.

I express no personal opinion upon the historical merits of this miracle, but when, in obedience to medical advice, I take a glass of the miserable stuff called California wine, I envy, not the bridegroom, but the guests at the marriage feast at Cana, who were permitted to imbibe an article of divine manufacture—a beverage which must have been incomparably exhilarating and glorious, even when compared with the nectar, which ancient poets tell us, was sometimes passed around at the assemblies of the gods.

SENT TO AUBURN.—Charles Lunn, a big double fisted genus tightest, to gratify his evil passions prompted by a too liberal use of "Jersey lightning," concluded he would amuse himself by pounding in a disgraceful manner an old man named Haite, whilst the latter was in bed at Cisco, on the morning of Wednesday, was convicted before Justice Olney and sent to the county Jail for ninety days. During Wednesday evening while Lunn was in charge of the night-watchman at Cisco he attempted to make his escape but was suddenly summoned to surrender by his guardian driving a pistol-hall in disagreeable proximity to his head. Deputy Rogers escorted him to Jail on Thursday.

MEDICAL.
FRENCH MEDICAL OFFICE.

DR. JULIEN PEREAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptist Society of San Francisco.

Dr. PEREAULT has pleasure in informing patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner, Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, upstairs entrance either Montgomery or Sacramento streets.

Dr. PEREAULT's studies have been almost exclusively devoted to the care of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptoms are pinpoints in the face and acting in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PEREAULT, either in person or by letter, as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage, gonorrhea, chloasma, Bubos, Ulcers, chancre, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

Dr. PEREAULT's diploma is in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everything, but we do claim that in all cases taken under treatment, we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

Dr. PEREAULT is the only agent in California for Dr. Bior's Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from robbery or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PEREAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 978, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.

MEDICAL.

DR. CHAS. H. TOZER'S
PRIVATE MEDICAL INSTITUTE,
N. E. Corner of Kearny and Jackson Streets,
SAN FRANCISCO.

The Great Eradicator of Special complaints, formerly of Lock Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.

DR. TOZER'S
Experience is of forty years' standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the Limbs, Headache, and a general aversion to general society, especially that of females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on Dr. TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

Stricture of the Urethra
Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Venereal Diseases.
In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system. Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula.

Syphilitic Disease.
As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas.
Of Ricord, Acton and Bostwick, are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form. These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating as it does, from 1810. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood, so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia.
And diseases arising from the use of Mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness.
Should you be afflicted with any of the following symptoms, such as weakness of the Back and Limbs, Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Foreboding, Self-distrust, and aversion to society, consult Dr. TOZER at once, and he will restore you to perfect health.

To Females.
When you are afflicted with Weakness of the Back and Limbs, Head, Dimness of Vision, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult Dr. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor. My FEMALE MONTHLY PILLS were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office.

Price, FIVE DOLLARS—with full directions on each Box. Sent by Mail or Express.

To Correspondents.
Patients of either sex, who may desire the opinion and advice of Dr. TOZER, can, by submitting a written statement of their case to the Doctor, receive the attention and medicines necessary to a successful cure without the necessity of a personal interview. All letters strictly confidential, opened and replied to by the Doctor himself.

Consultation at the office or by letter, FREE. Cures in all cases guaranteed. Office hours from 9 A. M. to 5 P. M.

A Grateful Acknowledgment to Skillful Gentlemen.

SAN FRANCISCO, June 1, 1896.
Dr. Chas. H. Tozer—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me to the ladies who are now in your hands, and who are about a year ago. The root of my trouble had completely rotted out, and my palate dropped and remained, stopping up the passage so that I could hardly swallow. You cut it out, and I felt at once, which relieved me immediately, and I was enabled to swallow my food, and in a short time I was able to improve. I took your medicine, and followed your directions for several months. You finally succeeded in stopping the disease, saving my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve, until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, in order that I could have a plate made for me to enable me to speak more to back, front, and side, and am now using it. My eternal thanks are due to you for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health, and even my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend my friends to call on you should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will lead them to a land from whence no traveler returns.

With my best wishes for the success of both of you, I remain, yours, etc.,

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Sexual Disorders.

TO THE AFFLICTED.
Dr. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all Private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhea, Gleet, Stricture, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to secure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has reference from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit cures.

Dr. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen that his statements are fully substantiated by a Notary Public.

The welfare of society imperiously demands that public notice be given to warn the unwary that to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles) I placed myself in their charge, and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunate who require medical advice, if you have any doubt as to whom you may employ, ask Dr. DOHERTY in this city. My experience may save you many dollars.

I would also add that in the early stage of my disease, I used a large amount of the preparations advertised as an infallible cure for Gonorrhea, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
L. H. —

Seminal Weakness—A Sworn Certificate of a most Remarkable Cure of Spermatorrhea.
A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. DOHERTY, alone induced me to make this statement. For many years I have been afflicted with that fearful disease known as Spermatorrhea. I had tried every remedy, but to little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most distressing symptoms as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted with an extreme nervousness, and I was seriously impaired my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and distressing thoughts, and I was entirely unfit for any of the duties of life. From 1885 to the summer of 1893, I endured the very best medical talent I could find, and spent several hundred dollars, but to no avail. I had about conceived there was no relief for me in this world, but seeing Dr. DOHERTY'S advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. DOHERTY at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, and I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care in one week after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself

To Females.
When a female is in trouble, or afflicted with diseases as weakness of the back and limbs, pain in the head, dimness of vision, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go to the celebrated female doctor, W. K. DOHERTY, at his Medical Institute, and consult him about their troubles and diseases. The Doctor is offering more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from ruin and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. DOHERTY'S Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.
Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. DOHERTY on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, respectfully assured that their communications will be held most sacred. Dr. DOHERTY takes this opportunity to observe, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case is fully and candidly described, personal communication will be superfluous, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no misapprehension of the letter or parcel so far as the case is concerned. Consultation at the office free. Permanent cure guaranteed or no pay. Address,
W. K. DOHERTY, M. D.,
Sacramento Street, San Francisco, California.

Opinions of the Press.
"DR. DOHERTY'S reputation as a physician is a sufficient guarantee for the cure of any case he undertakes."
"DR. DOHERTY has devoted his study more particularly to chronic, specific and secret practice, and as such is now the most successful of any physician in the State of California."
"DR. DOHERTY'S reputation is second to no other physician on the coast in chronic and specific practice."
"DR. DOHERTY—Few men in the medical profession have succeeded in gaining the confidence of the public in their skill and judgment as he has."

THIS CELEBRATED INSTITUTE
has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the most renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES AND IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, they destroy the eye, the strength from the frame; they give to the world pauper and diseased offspring, and poison through successive generations the race of mankind. The marks can be seen in Scrofula, Consumption, Cripples, the Idiote, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the efforts of medicine. **WHEN PERFECT CURES** can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES OF THE URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, **PERFECT, SPEEDY AND PERMANENT.**

Cures are Always Guaranteed.
In syphilis and its adjuncts: Gonorrhea and its accompanying diseases; all diseases of the Bladder, Kidney, and prostate; Seminal Weakness, Diseases of the Heart and Lungs—Dyspepsia, Indigestion, Impotency; Impudent consumption, and all diseases of the urinary organs, in either sex, cure always warranted. **NO PAY REQUIRED**, at the

Seminal Weakness or Spermatorrhea
The young man who experiences that growing weakness is his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, macabre failure of the powers of the mind, disease for society, dread of impending trouble, foolishly, and a host of other symptoms, troubled and lascivious dreams, accompanied by growing debility, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most distressing disease, all of which Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the path of his existence towards a premature and painful end. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the most excruciating of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of his happiness, is a victim to his evil, and an innocent companion of his pain. He adds to his misery and disorder, until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings, and who the Doctor would especially address himself, giving to each and all assurance of a **PERFECT AND PERMANENT CURE**, without hindrance to business, change of diet, or fear of the address. See below.

Important to Females.
When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Gynecology for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in a thorough manner as years of study and practice—both in hospitals and private families—can
